

Join us to learn about a discussion course:

# GLOBAL WARMING: CHANGING CO<sub>2</sub> COURSE

Please join us to learn more about a discussion course on global warming. This self-facilitated course offers an opportunity to learn more about the history and science of global warming, explore personal values and habits as they relate to climate change and consider actions to curb global warming.

## TOPICS COVERED:

**Off Course:** Explores personal responses to climate change and why society has been slow to respond.

**Collision Course:** Breaks down the history and science of climate change and our participation.

**Changing Course:** Identifies new strategies and personal action to mitigate the effects of global warming.

**Setting A New Course:** What will it take to create a sustainable future?
